

OUTSIDE SAFE REFUGE AREAS FOR A FIRE EMERGENCY

The recommended outside Safe Refuge Areas for a **FIRE** emergency are:

- East of building at Alameda & Hollywood Way

It is important for occupants to proceed away from the building (in case of falling glass) and out of the way of incoming Fire Department Personnel. Use caution crossing streets. Occupants will meet their Suite/Floor Wardens at the designated outside Safe Refuge Area. Suite/Floor Wardens will take a head count at the Safe Refuge Area.

IF EVACUATIONS IS NECESSARY IN A BOMB THREAT, EXPLOSION OR EARTHQUAKE, A SAFE REFUGE AREA WILL BE DETERMINED AT THAT TIME.
